

Pocket Listing With Design Pedigree

1643 12th St, Unit 2, Santa Monica, 90404

In a world full of wannabes, this creative, live/work loft designed by architect Frank Gehry and modern artist Charles Arnoldi is the real deal. The four-level space, once Arnoldi's home, is being offered for sale with plans for a dramatic entryway developed by Seattle-based design firm Olson Kundig. Vaulted ceilings, plywood flooring and oversized industrial windows affirm the authentic vibe.
