

# A note from Tami Pardee

Dear neighbors and friends,

I don't know about everyone out there but, in all honesty, I'm very happy to say goodbye to 2023 and welcome 2024 with open arms. It isn't just about turning the page, but embracing a new chapter filled with opportunities and growth.

At Pardee Properties, we're not just optimistic about the future, we're energized by it. There's a palpable energy in the air — have you felt it?

We've already seen a **significant uptick** in buyer interest and listing sales which is hopefully a sign of more good things to come. The expected upward shift could **invigorate the market**, making 2024 a pivotal year for real estate. Whether you're thinking of buying, selling, or just keeping an eye on the market, this year could open up some really interesting doors. I'm here to chat about what it could mean for you. **On your own timeline, real** estate knowledge is always just a call away.

Thank you for your continued trust and partnership. Here's to an amazing 2024!

With love,

Tami Pardee

Founder/CEO

What I'm noticing

# in the market

### • Fewer closings across the board

Similar to Q3, 2023, there were fewer closings (year over year) across the Westside - with the exception of a handful of outlier areas.

• Above asking closings

While sales totals were down, many areas saw homes selling for over the asking price on average.

# What are backup offers?

Backup offers can provide both buyers and sellers with strategic advantages even when the property is in escrow. Here are the key points:

### For buyers

- Don't hesitate to submit a backup offer even if the property has received higher bids. It's a no-cost strategy to stay in contention.
- In our market, up to 20% of real estate transactions fall through during escrow.
- As a backup buyer, you can obtain the property without it going back on the market.
- By putting in a backup offer, you can remain informed about the status of the property.

- We encourage backup offers to ensure a smooth sale process and to have options in case the first Buyers cancel escrow.
- Backup offers provide a fallback • When the Sellers accepted an option if the primary offer offer, our agent didn't just stop falls through. there. They proactively advised the • Encouraging backup offers other interested buyers to submit backup offers in writing. This
- keeps potential buyers engaged and informed
- Having backup offers can give sellers leverage during negotiations.

For sellers

• We have experienced instances where buyers in third place for a property have won out on the deal by staying as a backup. This was a success for the sellers and buyers. Everyone was happy!

Backup offers are a way to secure deals and maintain options. Pardee agents strategize, communicate, and advocate tirelessly for all clients, ensuring that even those in backup positions have a strong chance of success.

As we look at interest rates over a 10-year period, we see the downward slope — but there's been a significant rise since 2022.
